### Report of Independent Auditors

The Members of Florida Local Government Investment Trust

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Florida Local Government Investment Trust (the Trust) which comprise the statements of net position as of September 30, 2018 and 2017, the related statements of operations and changes in net position for the years then ended, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Page Two

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of Florida Local Government Investment Trust, as of September 30, 2018 and 2017, and the changes in its net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Trust's basic financial statements. The schedule of investments is presented for purposes of additional analysis and is not a required part of the basic financial statements.

### Page Three

The schedule of investments is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of investments is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2019 on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

Thomas Howell Ferguen P. a.

Tallahassee, Florida January 31, 2019

### MANAGEMENT'S DISCUSSION AND ANALYSIS

The Florida Local Government Investment Trust (the Trust) is a local government investment pool (LGIP) developed through the joint efforts of the Florida Association of Court Clerks and Comptrollers (FACC) and the Florida Association of Counties (FAC). Organized on December 12, 1991, the Trust is designed to complement existing investment programs by providing investment vehicles for funds that can be invested in short-term to intermediate-term securities and have returns generally greater than the national average for money market instruments. The Trust offers two open-ended, professionally managed funds available only to public entities in Florida, as defined in the Declaration and Agreement of Trust.

The Short Term Bond Fund is a fund with an investment portfolio structured to maintain safety of principal and maximize available yield through a balance of quality and diversification. This Fitch rated AAAf/S1 Trust invests in securities with effective maturities of less than five years. Generally, the weighted average maturity of the portfolio falls between 1 to 3 years. The weighted average maturity for the portfolio is 1.51 years as of September 30, 2018. These securities are all high quality, primarily "AAA" and "AA" rated.

The Day to Day Fund is a Fitch AAAmf rated money market product, offering a fiscally conservative diversification option for Florida local governments. This fund provides investors with liquidity, stable share price and as high a level of current income as is consistent with preservation of principal and liquidity. The weighted average maturity is 34.00 days as of September 30, 2018. These securities are all high quality, primarily "AAA", "AA", and "A-1" rated.

The Trust was created and established under the laws of the State of Florida for the purpose of providing investment funds through which public entities may pool funds which are not immediately required to be disbursed in order to take advantage of permitted investments and maximize net earnings, subject to and in accordance with the provisions of the laws of Florida, from time to time in effect, governing the investment of funds by such public entities. The Trust is an external investment pool as defined by Governmental Accounting Standards Board (GASB) Statement Number 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

The Trust's management discussion and analysis presents an overview of the Trust's financial activities for the fiscal year ended September 30, 2018. Please read it in conjunction with the Trust's financial statements. Its intent is to provide a brief, objective, and easily readable analysis of the Trust's financial performance for the year and its financial position at fiscal year-end September 30, 2018.

### **Overview of the Financial Statements:**

The financial statements provide financial information about the Trust which is an investment trust fund. Investment trust funds are accounted for using an economic resources measurement focus and the accrual basis of accounting. Earnings on investments are recognized as revenue when earned, and expenses are recorded when the liability is incurred.

The Trust presents the following basic financial statements: a Statement of Net Position, a Statement of Operations, and a Statement of Changes in Net Position. The Statement of Net Position presents all of the Trust's assets and liabilities with the difference reported as net position. The Statement of Operations shows the increase or decrease in net assets as the difference between investment earnings and investment expenses. The Statement of Changes in Net Position shows the increase or decrease in net position during the year as a result of investment activities and participant transactions.

### **Financial Highlights:**

- For fiscal years 2018 and 2017, the Trust held a AAA mmf and AAAf/S1 rating from Fitch.
- The consolidated net position of the Trust at the close of fiscal year 2018 was \$1.505 billion, compared to \$1.442 billion in 2017, an increase of approximately \$63 million or 4.37% from the prior year.
- For the close of fiscal year 2018, the Short Term Bond Fund had a net position balance of approximately \$872 million and the Day to Day Fund had a net position balance of approximately \$633 million.
- Total investment income for fiscal year 2018 was \$17.9 million compared to \$15.3 million for fiscal year 2017.
- Total expenses incurred were \$3.16 million for fiscal year 2018, compared to \$2.92 million for fiscal year 2017.
- For fiscal year 2018, participant contributions increased 46.11% over the prior fiscal year, while participant withdrawals increased by 38.71%, resulting in net participant contributions of \$48.3 million. For fiscal year 2017, net participant withdrawals were \$8.69 million.

### **Financial Analysis:**

### **Annual Budget:**

Management prepares an annual operating budget for the Trust. A budget to actual comparison is discussed at each Trustee meeting.

### **Capital Assets:**

The Trust has no capital assets or long-term debt.

Listed next is a quarterly economic and market summary of events that impacted the Short-Term Bond and Day to Day Funds.

### July-September 2018:

The third quarter was a tug-of-war between robust economic data and persistent geopolitical risk across the globe. The U.S. economy remained the anchor for global growth, with tailwinds coming from strong employment figures and corporate profits. Consequently, the Federal Reserve continued to raise interest rates, notching its eighth hike since the end of 2015. Headwinds outside the U.S. included volatility in emerging markets, overhang regarding Italian politics and the forthcoming departure of the UK from the euro zone. All in all, the tone across risk assets was broadly positive despite volatility in select sectors. Yields moved higher, but corporate credit risk premiums declined and equity prices increased globally. We believe the front end of the yield curve is the most attractive it has been in a decade as yields move up and provide higher total return potential and low return volatility.

| Portfolio Charact               | eristics (September 30, 201 | 18)           |
|---------------------------------|-----------------------------|---------------|
|                                 | Short-Term Bond             | Day to Day    |
| Portfolio Market Value          | 872.3                       | 633.0 million |
| Weighted Average Credit Quality | AAAf/S1                     | AAAmmf        |
| Weighted Average Duration       | 1.51 years                  | 34 days       |

### April -June 2018:

Headlines dominated second quarter market sentiment, primarily led by Italian politics, emerging markets and trade war fears. Economic data from the U.S. remained strong, allowing the Fed to raise rates another 25 basis points in June. Jerome Powell maintained his optimistic and hawkish policy tone, forecasting two more 25 basis point hikes in 2018 and three hikes in 2019. Consequently, the front-end of the U.S. yield curve moved higher, causing the curve to flatten. Despite strong Q1 corporate earnings, most assets traded with a weak tone during the quarter. The exception was high yield corporate bonds, which outperformed as spreads compressed even with robust outflows. Technical factors dictated a majority of the movement in spreads, which were roughly flat over the quarter but wider on the year. We believe fundamentals remain intact and outright yields remain attractive at the front end of the yield curve.

| Portfolio Characteristics (June 30, 2018) |                        |               |  |  |  |  |

| 30-day SEC Yield (net)                    | 2.07%                  | 1.98%         |  |  |  |  |
|   |                        |               |  |  |  |  |

### January-March 2018:

The first quarter was accentuated by sustained positive economic support, yet volatility increased across capital markets. Strong global growth, which pushed risk assets higher in January, led to concerns by mid-quarter that inflationary pressures could resurface more quickly than expected. This caused market volatility, as equities fell from their highs and corporate spreads widened off of their tights. Jerome Powell took over as Fed chair and shifted to a more optimistic and hawkish policy tone, hiking at the March meeting, forecasting two more 25 basis point hikes in 2018, and increasing expectations for hikes in 2019 and beyond. Consequently, U.S. interest rates rose, driving front-end yields to levels not seen since 2008. As the U.S. moves away from a zero interest rate policy and companies adjust to tax reform, money markets have normalized. The passing of debt ceiling legislation allowed the U.S. Treasury to increase issuance to the largest net supply since 2010 with a front-end concentration. As a result, Treasury bill yields moved higher and short credit spreads widened, providing attractive yields and increased opportunities in short fixed income.

| • , ,                           |                        |               |

### October-December 2017:

Persistent economic tailwinds prevailed in the fourth quarter as the unemployment and growth backdrop continued to improve around the globe. In addition, long awaited fiscal progress was made in the U.S. as the Trump administration and Congress delivered on tax reform legislation. These key ingredients resulted in a positive tone across risk assets, with equities continuing to set record highs and corporate risk premiums narrowing to post-crisis lows. With plenty of economic support, the Federal Reserve raised interest rates for the third time in 2017 driving the two-year Treasury yield to 1.88%, its highest level since 2008, while the 10-year finished the year little changed at 2.41%. Other central banks around the world followed suit, as the Bank of England and People's Bank of China hiked rates and the European Central Bank reiterated its intention to curtail asset purchases. Consequently, interest rates moved higher across the globe, but subdued volatility persisted as investors searched for yield.

### Notes to Financial Statements

Years ended September 30, 2018 and 2017

### 1. Summary of Significant Accounting Policies

The Florida Local Government Investment Trust (the Trust) was created and established under the laws of the state of Florida for the purpose of providing investment funds through which public entities may pool funds which are not immediately required to be disbursed in order to take advantage of permitted investments and maximize net earnings, subject to and in accordance with the provisions of the laws of Florida, from time to time in effect, governing the investment of funds by such public entities. The Trust is an external investment pool as defined by Governmental Accounting Standards Board (GASB) Statement Number 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

The Trust is operated and administered by a Board of Trustees consisting of six members. Three trustees have been appointed by the Florida Association of Court Clerks, Inc. and three trustees have been appointed by the Florida Association of Counties, Inc. (collectively, the Sponsoring Associations). The Trust is self-regulated and is not registered with the Securities and Exchange Commission.

The Trust offers two investment funds to its participants. The Short Term Bond Fund is intended to be a longer term higher yielding fund. Beginning in 2009, participants were offered the opportunity to invest in a second fund known as the Day to Day Fund. The underlying investments contained in the Day to Day Fund generally have earlier final maturity dates than the underlying investments contained in the Short Term Bond Fund. The Day to Day Fund is intended to be a more liquid fund with more frequent participant transactions.

### **Basis of Accounting**

The Trust's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The activities of the Trust are reported as an investment trust fund. Investment trust funds are used to account for activities where the determination of operating results is necessary or useful to sound financial administration. Accordingly, the accompanying financial statements have been prepared using the accrual basis of accounting.

### **Cash and Cash Equivalents**

Cash and cash equivalents are defined under U.S. generally accepted accounting principles as cash held in depository accounts as well as any short-term investments with a maturity of three months or less. Due to the short-term nature of all the assets of the Trust as well as the ability for members to liquidate their assets in a matter of days if needed, a cash and cash equivalents balance is not presented on the statements of net position.

### Notes to Financial Statements

### 1. Summary of Significant Accounting Policies (continued)

### **Investments**

The Trust's investment objective is to maintain safety of principal and to maximize available yield while assuming minimum risk through a balance of quality and diversification within the investment portfolio. The investment policy of the Trust restricts investments to the following:

- Direct obligations of, or securities fully guaranteed by, the United States of America;
- Obligations of certain federal agencies, including collateralized mortgage obligations within certain limitations;
- Repurchase agreements with certain collateral requirements and terms less than 30 days;
- Commercial paper within certain limitations;
- Certificates of deposit;
- Municipal bonds;
- Asset-backed securities within certain limitations; and
- Corporate securities with a minimum rating of "A" within certain limitations.

All of the Trust's underlying investments are registered and uninsured and are held by a custodian in the Trust's name.

Securities purchased must have an effective duration of less than five years. For those securities which trade based on an average maturity date or reset date, the average maturity date or reset date will be used instead of the final maturity date.

It is the intention of the Trust for its Investment Policy to be consistent with the policies set forth in Section 218.415 of the Florida Statutes.

The Day to Day fund is a "2a-7 like" fund. The fund is carried at amortized cost, which includes accrued income and is a method of calculating an investment's value by adjusting its acquisition cost for amortization of discount or premium over the period from purchase to maturity. Thus the value in the fund approximates fair value. A "2a-7 like" fund is not registered with the SEC as an investment company but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940, which comprises the rules governing money market funds. The Day to Day fund is reported at fair value, determined by the fair value per share of the pool's underlying portfolio.

### Notes to Financial Statements

### 1. Summary of Significant Accounting Policies (continued)

### **Investments (continued)**

Unlike the Day to Day fund, the Short Term Bond fund is accounted for as a fluctuating Net Asset Value (NAV) pool, not a "2a-7 like" money market fund. Accounting valuations reflect estimates of the market value of the securities rather than their amortized cost. Securities listed on generally recognized securities exchanges are valued at the last sales price as reported by such exchanges on the date of valuation. If no sale has been reported, the securities are valued at the average of the bid and ask price for the date of valuation. If neither a sale nor bid and ask price have been reported, then the most recent sales price is used. Securities not listed on generally recognized securities exchanges are valued at the most recent published bid quotation if market quotations are available. Other investments are valued based on quotations obtained from one or more recognized broker/dealers regularly dealing in such securities.

### **Fair Value of Investments**

The fair value of investments of both the short-term bond fund and day-to-day fund is determined on a daily basis.

### Computation of Unit Value and Legally Binding Guarantees

At the inception of the Trust, the unit value of the Investment Trust was deemed to be ten dollars (\$10.00). The initial unit value of the day-to-day fund was deemed to be one dollar (\$1.00). The share value on any date of valuation shall be computed by dividing the net asset value of the short-term bond fund or the day-to-day fund by the number of units then outstanding for each respective fund. There are no binding guarantees of share value.

### **Security Transactions**

Security transactions are accounted for on a trade date basis (date the order to buy or sell is executed).

### Method Used to Determine Participants' Shares Sold or Redeemed

The short-term bond fund is accounted for as a fluctuating NAV pool. Participants should multiply their short-term bond fund unit balance times the unit price to calculate the fair market value of their investment in the short-term bond fund. This method is consistent with the method used to report investments.

In the day-to-day fund, participants' shares are sold and redeemed using the amortized cost method, which is consistent with the method used to report the day-to-day fund's investments. The amortized cost method calculates an investment's value by adjusting its acquisition cost for the accretion of discount or amortization of premium over the period from purchase to maturity.

### Notes to Financial Statements

### 1. Summary of Significant Accounting Policies (continued)

### **Investment Income (Loss)**

Investment income is recorded on the accrual basis. The calculation of realized gains and losses is independent of a calculation of the net change in the fair value of securities and is determined on a specific identification basis. Realized gains and losses on investments that have been held in more than one fiscal year and sold in the current year are included as a change in the fair value of investments reported in the prior year(s) and the current year.

### **Income Taxes**

The Trust has received a Private Letter Ruling from the Internal Revenue Service indicating that income earned under the Trust should be excluded from gross income under Section 115(1) of the Internal Revenue Code of 1986.

### **Fund Accounting**

To ensure observance of limitations and restrictions placed on the use of resources available to the Trust, the accounts of the Trust are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, for financial statement reporting purposes all funds are combined.

### **Subsequent Events**

The Trust has evaluated subsequent events through January 31, 2019, the date the financial statements were available to be issued. During the period from September 30, 2018 to January 31, 2019, the Trust did not have any material recognizable subsequent events.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

### Notes to Financial Statements

### 2. Admissions, Withdrawals, and Distributions

Participation in the Trust is voluntary. Unit values are determined daily. Contributions and withdrawals are recorded at the unit value determined on the execution date in accordance with the terms of the Agreement and Declaration of Trust. Realized gains and losses from security transactions and net investment income are not distributed to the participants unless requested by the participants.

Calculation of units for the years ended September 30, 2018 and 2017 were as follows:

|                     |               | 2017              |               |               |
|---------------------|---------------|-------------------|---------------|---------------|
|                     | Day-to-Day    | <b>Short-Term</b> |               |               |
|                     | <b>Fund</b>   | Bond Fund         | Total Units   | Total Units   |
| Beginning           | 438,408,320   | 40,546,436        | 478,954,756   | 513,811,761   |
| Contributions       | 1,067,177,222 | 5,057,406         | 1,072,234,628 | 648,819,308   |
| Withdrawals         | (883,466,256) | (10,521,974)      | (893,988,230) | (687,876,676) |
| Reinvested earnings | 10,847,135    |                   | 10,847,135    | 4,200,363     |
| Ending              | 632,966,421   | 35,081,868        | 668,048,289   | 478,954,756   |

The following average per unit income and capital changes information is computed using the average month end balances of the Short Term Bond Fund:

|  |    | r Share            |                    |
|--|----|--------------------|--------------------|
|  |    | 2018               | 2017               |
| Interest on investments  | \$ | 0.5010 \$          | 0.3236             |
| Net realized gain (loss) on investments                        |    | (0.2190)           | 0.0241             |
| Net decrease in the fair value of investments                  |    | (0.0946)           | (0.0820)           |
| Total investment income  |    | 0.1874             | 0.2657             |
| Expenses Increase in per unit value from investment activities |    | (0.0804)<br>0.1070 | (0.0714)<br>0.1943 |
| Per unit value - beginning of year                             |    | 24.7483            | 24.5540            |
| Per unit value - end of year                                   | \$ | 24.8553            | 24.7483            |

The Day to Day Fund carries a per unit value of \$1.00.

### Notes to Financial Statements

### 3. Investments

As of September 30, 2018 the Trust had the following investments in the short-term bond fund:

| Investment Type                       | Fair Value     | Weighted Average Effective Maturity (Years) 1 | Fitch Rating |
|---------------------------------------|----------------|---|--------------|
| Agency ARM pass thru                  | \$ 1,105,588   | 0.03  | AAA          |

### **Fair Value Measurements**

The Fund's estimates of fair value for financial assets and financial liabilities are based on the framework established in the Fair Value Measurements and Disclosures accounting guidance. The framework is based on the inputs used in valuation and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance includes a hierarchy based on whether significant valuation inputs are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Fund's significant market assumptions. The three levels of the hierarchy are as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities traded in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and market corroborated inputs.

Level 3: Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement, and includes broker quotes which are non-binding.

At September 30, 2018 and 2017, the Fund's financial assets measured at estimated fair value on a recurring basis include long-term and short-term investments. The Fund has no financial liabilities measured at estimated fair value on a recurring basis.

### Notes to Financial Statements

### 3. Investments (continued)

The following tables reflect the estimated fair values of all assets and liabilities that are financial instruments at September 30, 2018 and 2017, including those measured at estimated fair value on a recurring basis. The estimated fair values are categorized into the three-level fair value hierarchy as described below.

|                         |     |                        | Septembe              | er 3 | 0, 2018       |             |         |

### 3. Investments (continued)

### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The amount of loss in the fair value of a fixed-income security increases as the current market interest rate related to the investment rises. Section 218.415(6), *Florida Statutes*, limits investment maturities to provide sufficient liquidity to pay obligations as they become due. The weighted average maturity for the securities held in the short-term bond fund as of September 30, 2018, was 2.56 years. The weighted average maturity for securities held in the day-to-day fund as of September 30, 2018, was 42.41 days. Due to the short-term and highly liquid nature of the Trust, exposure to large fluctuations in interest rates is minimal.

### Credit Risk and Concentration of Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of the investment in a single issuer. According to the Form of Agreement and Declaration of Trust Creating and Establishing the Florida Local Government Investment Trust, the Trust must always be maintained at a AAA or equivalent rating by a nationally recognized rating agency (currently Fitch). For the year ended September 30, 2018, the Trust had a credit rating of AAAf. With respect to the concentration of credit risk, except for government or agency securities, as of September 30, 2018, the Trust had no exposure of five percent or more to any single issuer.

### Custodial Credit risk

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the Trust will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. All of the Trust's underlying investments are registered and uninsured and are held by a custodian in the Trust's name.

### Notes to Financial Statements

### 4. Contractual Services

The Trust entered into service agreements with UMB Bank to provide safekeeping for Trust assets. The Trust's administrator has entered into a service agreement with UMB Fund Services, Inc. to provide accounting services for Trust assets. It has also entered into an agreement with Payden & Rygel, a professional investment manager, registered with the Securities and Exchange Commission and the state of Florida, to serve as investment advisor and to help the Trust achieve its objectives within the limits of the Trust's stated investment policies. Additionally, the Trust has retained counsel to provide legal services in accordance with terms of the agreement and Declaration of Trust. Consideration for services under each of these agreements is charged based upon the average balance of Trust assets. During the years ended September 30, 2018 and 2017, administrative expenses incurred under these agreements were as follows:

|                             |            | 2018      |     | 2017      |
|-----------------------------|------------|-----------|-----|-----------|
| Fund accounting fees        | \$         | 179,389   | \$  | 185,257   |
| Transfer agent fees         |            | 69,834    |     | 50,314    |
| Custodian fees              |            | 190,796   |     | 147,972   |
| Investment advisor fees     |            | 1,343,482 |     | 1,210,050 |
| Professional legal services |            | 106,106   | _   | 55,001    |
|                             | \$ <u></u> | 1,889,607 | \$_ | 1,648,594 |

### 5. Unsettled Trades

Generally, the trade date and settlement date for a given transaction are not the same. Security transactions are accounted for on a trade date basis (date the order to buy or sell is executed).

For the years ended September 30, 2018 there were no securities purchased receivables and no securities purchased payables. For the year ended September 30, 2017 there were \$94,207,412 of securities purchased receivables and \$130,190,981 of securities purchased payables.

### 6. Related Party Transactions

The Trust has entered into an agreement with FACC Services Group, LLC (FACC Services), a wholly-owned subsidiary of one of the Trust's Sponsoring Associations, to provide administrative services to the Trust for the Short Term Bond Fund. Under the terms of the trust administration agreement, the administrator is to receive a monthly fee payable out of the Trust. During the years ended September 30, 2018 and 2017, a total of \$628,279 and \$644,684, respectively, of such administrative fees were incurred by the Trust.

### Notes to Financial Statements

### **6.** Related Party Transactions (continued)

In accordance with provisions of the Agreement and Declaration of Trust, an amount equal to ½ basis point per month of the total Short Term Bond Fund is retained for use in education and technical assistance. The Board of Trustees may contract only with the Sponsoring Associations for utilization of these funds, which are restricted to programs related to local government education and training. Such amounts totaled \$582,418 and \$607,026 for the years ended September 30, 2018 and 2017, respectively.

For the Day to Day Fund, the negotiations of the administration fee and any education and technical assistance amounts have been tabled until the Day to Day Fund reaches \$1.0 billion in assets.

### Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors Florida Local Government Investment Trust

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Florida Local Government Investment Trust (the Trust), which comprise the statement of financial position as of September 30, 2018, and the related statements of operations and changes in net position for the year ended, and the related notes to the financial statements, and have issued our report thereon dated January 31, 2019.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Trust's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Page Two

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Trust's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
