Fitch Affirms the Florida Trust Day to Day Fund at 'AAAmmf'

Wed 23 Jun, 2021 - 4:35 PM ET

Fitch Ratings - New York - 23 Jun 2021: Fitch Ratings has affirmed the Florida Trust Day to Day Fund at 'AAAmmf', managed by Payden & Rygel, following a regularly scheduled review of the sector.

KEY RATING DRIVERS

The key rating drivers for the affirmation are:

- The fund's overall credit quality and diversification;
- Low exposure to interest rate and spread risks;
- Holdings of daily and weekly liquid assets consistent with shareholder profiles;
- Asset maturity profiles meeting Fitch's rating criteria;
- The capabilities and resources of the investment advisor.

PORTFOLIO CREDIT QUALITY/DIVERSIFICATION

Consistent with Fitch's criteria for rating MMFs 'AAAmmf', the fund maintains a high credit quality portfolio by investing exclusively in short-term securities rated at least 'F1' by Fitch or the equivalent.

MMFs rated 'AAAmmf' seek to manage their portfolios to limit exposure to individual issuers at less than or equal to 10% of the fund's assets, with no more than 5% of assets for those exposures above seven days in tenor. Minor and temporary deviations from these parameters may occur from time to time, mainly due to cash outflows. The funds also seek to limit their individual repurchase agreement (repo) exposures to individual counterparties to 25% of a fund's total assets, provided the counterparties are rated 'F1' or higher and such repos are fully collateralized by high credit quality and liquid government securities. In the case of repo with counterparties rated 'F2', funds seek to limit their exposure to individual counterparties to 10% of assets, as long as the repo is collateralized by high quality government securities and matures in one week or less. MMFs also seek to limit their exposure to government agencies, with exposures above 35% of assets to any one agency and limited to short-dated securities.

The fund's Portfolio Credit Factor (PCF) was in line with Fitch's 'AAAmmf' rating criteria of 1.50 or less at the time of this review. PCF is a risk-weighted measure that considers the credit quality and maturity profile of the portfolio securities.

MATURITY PROFILE

MMFs rated 'AAAmmf' seek to limit interest rate and spread risk by maintaining their weighted average maturities (WAM) and weighted average lives (WAL) below 60 days and 120 days, respectively.

LIQUIDITY PROFILE

MMFs rated 'AAAmmf' seek to maintain sufficient levels of daily and weekly liquidity to meet redemption requests. Specifically, taxable MMFs rated 'AAAmmf' invest at least 10% of total assets in securities offering daily liquidity and at least 30% of total assets in securities providing weekly liquidity in line with Fitch's rating criteria.

Fitch's rating criteria for MMFs also considers the degree of shareholder diversification and the manager's distribution platform and investor-related risk controls.

SURVEILLANCE

Fitch receives bi-weekly fund portfolio holdings information including the credit quality and maturity of the individual securities to conduct surveillance against the MMF Rating criteria. For additional information about Fitch MMF rating criteria, please review the criteria referenced below, which can be found on Fitch's website.

INVESTMENT MANAGER

The fund is managed by Payden & Rygel. As of March 31, 2021, the firm had \$139 billion in assets under management.

Fitch views the investment advisor's capabilities, resource commitments, operational controls, corporate governance and compliance procedures as consistent with the ratings assigned to the funds.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade are not applicable as the assigned ratings are the highest rating outcome under the MMF rating scale.

Factors that could, individually or collectively, lead to negative rating action/downgrade include material changes in the credit quality or market risk profile of the fund or a material and sustained breach of any of Fitch's criteria measures at the 'AAAmf' level.

SOURCES OF INFORMATION

The sources of information used to assess the rating was the fund's investment advisor and/or fund administrator and the public domain.

Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent).
