Disclaimer

This presentation is for informational purposes only and is being furnished on a confidential basis. By accepting this information, the recipient agrees that it will use the information only to evaluate its potential interest in the strategies described herein. This contents of this presentation may not be disclosed, reproduced or distributed to or otherwise used by any person at any time other than the recipient, without the prior written consent of Truist Securities; provided however that by acceptance of these materials, and notwithstanding any other express or implied agreement, arrangement, or understanding to the contrary, Truist Securities and its affiliates and the recipient agree that the recipient (and its employees, representatives, and other agents) may disclose to any and all persons, without limitation of any kind from the tax treatment, structure or strategy of the transaction and any fact that may be relevant to understanding such treatment, structure or strategy, and all materials of any kind (including opinions or other tax analyses) that are provided to the recipient relating to such tax treatment, structure, or strategy.

This presentation does not constitute a commitment to lend money, underwrite any proposed transaction, purchase securities or other assets, provide financing, arrange financing, or provide any other services. Truist Securities, Inc. and its representatives and affiliates make no representation and have given you no advice concerning the appropriate regulatory treatment, accounting treatment, or possible tax consequences of the proposed transactions described herein. Prior to entering into any proposed transaction, you should determine, without reliance upon Truist Securities, Inc. or its representatives or affiliates, the economic risks and merits, as well as the legal, tax, and accounting characteristics and consequences, of the transaction, and that you are able to assume these risks. These materials should not be relied upon for the maintenance of your books and records or for any tax, accounting, legal or other purposes.

All materials, including proposed terms and conditions, are indicative and for discussion purposes only. Finalized terms and conditions are subject to further discussion and negotiation and will be evidenced by a formal written agreement. Except as required by applicable law, we make no representation or warranty, express or implied, to you or to any person as to the content of the information contained herein. Opinions expressed herein are current opinions only as of the date indicated. Any historical price(s) or value(s) are also only as of the date indicated. We are under no obligation to update opinions or other information. Neither Truist Securities not any of its employees, affiliates, advisors, agents or representatives shall have any liability, whether directly or indirectly, in contract, in tor or otherwise, to any person in connection with these materials. There can be no assurance that any projections can be realized, that forward looking statements will materialize or that actual returns or results will not be materially lower than those presented herein. Neither Truist Securities not any of its employees, affiliates, advisors, agents or representatives accepts any fiduciary responsibility or favor or sequences, financial or otherwise, arising from the implementation of this proposal. Truist Securities, its affiliates and/or individuals associated therewith may have positions in the products or securities (including derivatives thereof) referred to herein.

Any interest rates or transactional terms used herein are hypothetical and take into consideration conditions in today's market and other factual information.

This presentation does not constitute an offer to enter into any "Swap" within the meaning of Section 1a(47) of the Commodity Exchange Act (which we refer to, along with any "foreign exchange swap" or "foreign exchange forward", as a "Swap"). This presentation is not a recommendation that you act on the strategies or transactions described herein or that you enter into a Swap or any trading strategy involving a Swap. Any such offer or recommendation, if any, will only occur after we have received appropriate documentation from you regarding whether you are qualified to enter into a swap under applicable law. If Truist Bank makes a swap recommendation or offers to enter into a Swap with you after you have qualified pursuant to appropriate documentation, you should understand that Truist Bank will be acting in its capacity as a counterparty.

Nothing in this document constitutes a "Research Report" within the meaning of CFTC Regulation 23.605(a)(9). If this document references a Swap, this document constitutes a solicitation within the meaning of CFTC Regulation 23.605(a)(9)(v) to potentially enter into a derivatives transaction upon satisfaction of all applicable legal requirements.

The following disclosures are required by Municipal Securities Board ("MSRB") Rule G-17, as Truist Securities proposes to serve as an underwriter, and not as a financial advisor, municipal advisor or fiduciary to any person or entity, in connection with the issuance and sale of securities for the person to whom this is addressed:

(i) MSRB Rule G-17 requires an underwriter to deal fairly at all times with both municipal issuers and investors.

(ii) An underwriter's primary role is to purchase securities with a view to distribution in an arm's-length commercial transaction with an issuer, and an underwriter has financial and other interests that differ from those of such issuer.

(iii) Unlike a municipal advisor, an underwriter does not have a fiduciary duty to an issuer under the federal securities laws and is, therefore, not required by federal law to act in the best interests of that issuer without regard to its own financial or other interests.

(iv) An underwriter has a duty to purchase securities from an issuer at a fair and reasonable price but must balance that duty with its duty to sell those securities to investors at prices that are fair and reasonable.

(v) An underwriter will review the official statement, if any, for those securities in accordance with, and as part of, its responsibilities to investors under the federal securities laws, as applied to the facts and circumstances of the transaction.

(vi) The issuer may choose to engage the services of a municipal advisor with a fiduciary obligation to represent the issuer's interest in the transaction.

The information provided is not intended to be and should not be construed as "advice" within the meaning of Section 15B of the Securities Exchange Act of 1934. You should consult with your own financial and/or municipal, legal, accounting, tax and other advisors, as applicable, to the extent you deem appropriate. If you would like a municipal advisor in this transaction that has legal fiduciary duties to you, then you are free to engage a municipal advisor to serve in that capacity.

Truist Securities is a trade name for the corporate and investment banking services of Truist Financial Corporation and its subsidiaries, including Truist Securities, Inc., member, FINRA and SIPC. All rights reserved. Debt and equity underwriting, trading, research and sales, loan syndications, municipal securities trading and sales, and mergers and acquisitions advisory services are offered by Truist Securities, Inc. Cash management, loans and loan related products, foreign exchange, risk management products and services and agency services are offered by various non-broker dealer subsidiaries of Truist Financial Corporation.

Market Commentary

The U.S. Consumer Sentiment Index increased to 79.4 on 3/28 from 76.5 earlier in the month, the largest intramonth increase since August 2022. This is the index's highest level since July 2021.

March municipal supply was up 3.69% year-over-year, totaling \$35.3 billion, with \$33.0 billion issued as tax-exempt bonds. Negotiated issuance totaled \$31.3 billion while \$4.0 billion came to market on a competitive basis.

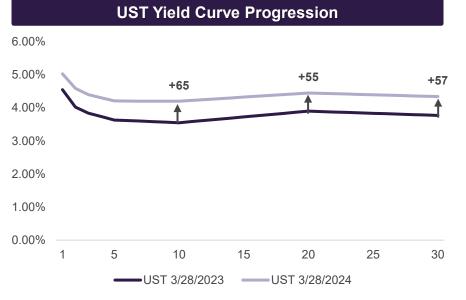

Municipal yields increased week-over-week, as a correction in the short end saw 1-year MMD rise 17 bps and the 2-yr spot up by 13 bps.

Municipal inflows continued for the fifth consecutive week as investors added about \$447 million into bond funds for the week ended 3/27.

Recent Market Impacts on Borrowing Vehicles

Holland & Knight

Truist Securities

Shifts in Market Borrowing Structure

Bank Market

Shorter Tenors:

- Pre-Silicon Valley Bank ("SVB") Collapse, tenors for bank loans were significantly longer
- Post-SVB Collapse, many banks have shortened tenors for bank loans
- Cost of funds:
 - Significant increase in cost of capital for banks, which has driven up borrowing costs, particularly in 1-5 year range
- Tighter Covenants
- Focus on profitability and relationship

Bond Market

- Push for shorter call features
- Resurgence in publicly issued BANs and VRDBs
- Greater differential between Taxable and Taxexempt rates
- Increased efficiency for insurance policies
- Decrease in refunding issuance
- Popularity of tenders
- Stable to slightly tighter covenants
- Increased investor focus on construction contracts (GMPs) and disclosure
- Increased efficiency for smaller transactions due to favorable market rates

Truist Securities 14

Changes in Capital Planning

How have strategies shifted to accommodate market

- Lines of credit with unused fees vs. Fully funded BANs with invested proceeds
- Preference for shorter facilities in light of interest rates and volatile construction cost environment
- Increased contingencies for Construction Projects
- Multi-phased financings

Creative Solution to WIFIA Reset

Polk Regional Water Cooperative

- PRWC was created pursuant to an Interlocal agreement between 16 local Cities, Towns and Polk County, to create an essential alternative water supply for the region.
- In July 2023, Truist Bank closed an interim loan facility for the Polk Water Cooperative ("PRWC"). Truist provided a \$154M bridge loan to the Cooperative which ultimately will be used to fund a portion of the beginning stages of the water projects, but that also provides the PRWC a flexible low-cost option to begin construction.
- Ultimately the Truist loan will be repaid in three years from a federal loan program, but because of the Truist loan, PRWC was able to lower the effective borrowing costs over the next three years, considerably (which in turn benefits the residents of the region by sidestepping unnecessary water rate increases).
- Preserving the flexibility of a client to act in multiple market conditions. WIFIA loans allow for a borrower to reset the rate for a period of time, if the loan is not drawn. In a low interest rate environment, like we've seen for some period of time now, a client could use this structure to fund construction through borrowing at the short-term rates (1-3 years). Essentially, saving money on interest costs during the construction period and locking in a long-term funding source for planning purposes.
- In the WIFIA case, in a then rising rate market, the value proposition was a bit different. The client still had locked in the long-term interest rate via the WIFIA program, but the bank provided a short-term funding at a rate, that while perhaps higher than historical, was generally offset by the higher investment return on the loan proceeds, which we funded and placed into a project fund, which offset or lowered their overall costs of funding the construction project. Importantly, under both scenarios, the bank loan provided the client the flexibility to lower their long-term rate if rates decrease during the construction period or keep the rate they had if long term rates weren't low enough to allow for an interest rate decrease on the WIFIA loan.

Rebate and Arbitrage Rules

What is Rebate and arbitrage?

- Arbitrage refers to the investment of bond proceeds at a rate that is higher than the bond yield.
- The issue date of the bonds starts the clock for measuring arbitrage.
- Temporary Periods. Proceeds of a bond sale may be invested at a higher yield for permitted temporary periods without causing tax-exempt bonds to be "arbitrage bonds."
- Earnings from the investment of bond proceeds may be required to be rebated to the U.S. Treasury *if* such earnings are earned at a rate that exceeds the yield on the tax-exempt bonds.
- The amount required to be rebated is based on the difference between the amount actually earned and the amount that would have been earned if the investment had a yield equal to the yield on the issue.
- If rebate is required, such amount must be rebated to the federal government within sixty days of the computation date for that period.

Positive Arbitrage Rules

When can you invest without a restriction on yield?

Temporary Periods. During temporary period the bonds may be invested without restriction on the yield, subject to possible rebate.

Instances where this can occur include:

- Proceeds used for <u>capital projects</u> qualify for a temporary period of three years post-issuance, if the Issuer reasonably expects that:
 - (i) 85% of the sale and investment proceeds will be spent within that period,
 - (ii) substantial binding commitments to spend 5% of said proceeds are made within 6 months after issuance, and
 - (iii) completion of the capital projects financed with bond proceeds will proceed with due diligence.

The three-year period may be extended to up to five years if both the Issuer and a licensed architect or engineer certify that a longer period is necessary to complete the capital project.

- Bond proceeds deposited in an escrow fund to **refund** another issue of bonds generally qualify for a temporary period of 90 days from the issue date.
- Bona fide <u>debt service funds</u> qualify for a temporary period of 13 months. "Bona fide debt service fund" is defined in the Treasury Regulations as a fund that (1) Is used primarily to achieve a proper matching of 3 revenues with principal and interest payments within each bond year; and (2) Is depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of: (i) the earnings on the fund for the immediately preceding bond year or (ii) one-twelfth of the principal and interest payments on the issue for the immediately preceding bond year
- **Investment proceeds** have a temporary period of one year beginning on the date of receipt, and replacement proceeds and other gross proceeds have a temporary period of 30 days beginning on the date of receipt.

Holland & Knight

Positive Arbitrage Rules

Can you keep the arbitrage earnings?

- Arbitrage earnings are not required to be rebated to the U.S. Treasury, if:
 - 6 Month Exception 100% of proceeds are allocated for the governmental purpose of the issue within six months from issuance.
 - 18 Month Exception 100% of proceeds are allocated for the governmental purpose of the issue within a defined spending schedule ending eighteen months after issuance.
 - 2 Year Exception Only available for "construction issues" where all "available construction proceeds" are expended within two years following issuance and a defined spending schedule must be met.
 - Amounts earned on a debt service fund if the total earnings do not exceed \$100K per year.
- Even if an issue meets one of these exceptions, the amounts held in a Reasonably Required Reserve or Replacement Fund are still subject to Rebate.
